EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification:

At page 1, line 4, please add the following paragraph in place of the paragraph presented in the preliminary amendment of September 9, 2003:

-- **PRIORITY INFORMATION**

This application is a divisional application of U.S. Patent Application No. 09/858,803 filed May 16, 2001, now Patent No. 6,631,739, the entire contents of which is hereby expressly incorporated by reference and also claims priority to Japanese Application No. 2000-146136 filed May 18, 2000, the entire contents of which is hereby expressly incorporated by reference. --

The above amendment was required to update the priority information with regards to the parent application.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to disclose the recited pipe liner bag everting device comprising a tubular

body with a first end having a diameter smaller than the diameter of a second end where further first and second members are claimed that are unitarily coupled with each other which suggests further structure which is formed of a plurality of parts as defined by the language and then further described in the dependent claims. It is noted that the claim language of a third member, third end, and second guide tube are not literally commensurate with the language of the specification, but that the specification and figures support this language (see figure 15, and the specification page 5, paragraphs 0074 and 0075; and page 6, especially paragraphs 0076 and 0077 which describe inner and outer guide tubes, and shows the third member and end connected with the other guide tube) and are considered defined by the language of the specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James F. Hook whose telephone number is (571) 272-4903. The examiner can normally be reached on Monday to Wednesday, work at home Thursdays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Mar can be reached on (571) 272-4906. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
